

CELEBRATION PYROTECHNICS

*where timing & choreography
make the difference*

Bespoke Wedding Firework Display and Pyrotechnic Effect Specialists

Professional firework displays are a fantastic way to enhance your wedding day celebrations. Fired to kick start, compliment or conclude your evening entertainment, a firework display can add a very magical touch to your special day.

We individually design, carefully choreograph and electronically fire all our displays so you can have a tailor made show to suit your event and venue, fired and timed to your requirements, for a lot less than you might think! Be it a stunning aerial show, atmospheric pyro-animation effects or dramatic avenues of sparkling fountains, we can provide it all on your special day.

We are always delighted to include any wedding colour themes or favourite effects in the design, create personalised lancework, such as initials in a red heart, or fire red heart shaped aerial shell bursts. If you would like your display designed to your favourite piece of music then we are experts at firing shows to all genres of music. The precision timing and standard of choreography we achieve is second to none.

“Absolutely out of this world! It was just unbelievable! Thank you for making our day even more special.”

Paul & Emma Ainsworth - Padstow, Cornwall

“I must say how thrilled and delighted we were with the firework display. It was really superb and better than we ever dared hope for!”

Mr & Mrs Burman - Langdon Court, Plymouth

With over 20 years of display experience, a professional team of BPA qualified firers and full insurance cover your display could be in no better hands. Unparalleled product knowledge combined with an uncompromising approach make our firework displays unsurpassed. Simply contact us with your date and venue details and we will be pleased to give you our expert advice on what will create the best possible show for you.
